The actual amount in litigation is \$3,000,000, being taxes at an average rate of seventy cents on the hundred upon a \$90,000,000 property for five years.

The suit instituted by Agent Weller resulted in a compromise, the company agreeing to pay taxes to the extent of \$312,000. Weller prayed the recovery of only \$1,000,000, while Mr. Bizot asks for 63,050,000. This difference arises out of the difference of conception of the defendant's liability.

I don't want money that I don't want money that I don't want. I don't need it. and am not after it. But I am after the dollars that are now going wrong in the quest of health. Look at all these poor wrecks of humanity that are spending all they earn on drugs—dope that is paralyzing their vital organs—that have spent all they have earned for years without gaining a pound of strength for the hundreds of dollars wasted. That is the money that I am after, because for every dollar I take I can give a thousand per cent interest and I don't want it at all until I have cured you if you will secure me. I have cured so many cases right here that I can prove my claims to you, but if that proof is not enough, I'll give you the names of men right near you—where you are. Is that fair?

Most of the belts that I am selling now are to men who have been sent here by their friends whom I have cured. I think that is the best evidence that my business is a success from the standpoint of cures, as well as on the dollar side.

Just lately I have received letters of praise from these men.
